Erick Eduardo Alcocer Salas

Frontend Developer Angular

Telephone : +52 811 081 29 76
Email : fine_567@hotmail.com
Address : Monterrey N.L México

Profile

Frontend developer using Angular as main framework.
Developed interactive and dynamic dashboards using Angular, incorporating interceptors and guards for enhanced security and data management.
Designed and implemented management systems with a focus on responsive design and efficient data handling using RxJS for reactive programming.
UX/UI Design Implementation, created intuitive and visually appealing user interfaces using Figma, translating designs seamlessly into code for a consistent user experience across platforms.

About me

I was born on December 26th, 1989, in Monterrey, N.L., Mexico. I have a deep passion for video games, programming, and design. I love to learn about new technologies, languages, and continuously improve my skills. My love for gaming began in childhood with the Nintendo Entertainment System, and now I'm an active player.
